

National Occupational Standards Review Feedback Form

Section 1

Name:

Date:

Organisation:

Name of NOS/Product reviewed: NOS that underpin the Frontline Environmental Services qualification

Geographic Area: England Scotland Wales Northern Ireland UK Wide

Section 2 – Complete this section if you are reviewing the National Occupational Standards

Please consider the following four questions:

1. Do the NOS cover all aspects of the industry? ~~YES~~/NO

If you answered NO, please explain what you would like to see added to the NOS – or removed if no longer applicable?

This assumes it covers collection and sorting of dry recyclables only - industry is much wider and title of qualification is very generic

2. Should the NOS be translated into the Welsh Language? YES/NO

3. Please provide more specific comments (if you have any) in the table below on anything you would like to add, change or remove

| Title of qualification reviewed: | | | | | |
|----------------------------------|----------|-----------------------------|------------------------------------|---|---|
| NOS unit number | Overview | Performance criteria number | Knowledge and Understanding number | Change required | Comments |
| EUSWO29 | | P1/ P2 | K1 | Needs to include 'prevent' environmental damage as well as reduce | |
| EUSWO29 | | | K6 | Should refer to Waste and resource management not 'disposal' | |
| EUSWO28 | | P5 | | | Legal requirements should be complied with for all machinery and equipment – not just those on the public highway |
| EUSWO28/43 | | | | | More consistency where appropriate on these two standards as they could be for very similar activities. |
| EUSWO31 | x | | | | Overview needs to be more specific re 'site' in order to be clear on the context of this i.e. recycling site, |

| | | | | | |
|---------|---|----------|----|--|--|
| | | | | | public site (flytipping) or highway ???etc. |
| EUSWO31 | | | K1 | | Beyond remit of post to recognise some vehicle problems – needs clarifying. |
| EUSWO04 | x | x | x | | Various reference to operation of machinery. Does this need clarifying as the title is 'manual' collection of waste. Reference to equipment is ok. |
| EUSWO13 | | P4 | | | 'Unusual' - very loose term! |
| EUSWO13 | | P7/14/16 | | | What if this is not their role! |
| EUSWO13 | | P8 | | | This seems a bit onerous (potentially depending on waste streams) for a level 2 – may need a site chemist! |
| EUSWO13 | | P18/19 | | | May not have budgetary control to sign this off. Should this therefore be linked to 'report'etc |
| EUSW045 | | All KAU | | | Nothing about understanding the information needed, when it is correct and when it is wrong – not just about what is missing! |
| EUSWO30 | x | | | | Needs clarity on whether this is site based (if so how does it differ to W045) or involving vehicles, household/ company collections etc. |

| | | | | | |
|--|--|--|--|--|---|
| | | | | | if latter then some important elements missing. |
| | | | | | |
| | | | | | |

4. Do you have any other comments? YES/~~NO~~

If you answered YES, please let us know your comments

Have not had time to consider all the NOS for this suite – therefore may have other comments to make about suitability etc etc
CIWM is happy to work with EU Skills as appropriate for further input to this as required.

5. There are a number of imported units from other standards setting bodies in the suite. We cannot change these NOS but we need to ensure they remain fit for purpose. These are:

PROHSS1 – Make sure your own actions reduce risks to health and safety

CFACSD8 –Work with others to improve customer safety

LANL27 – Use and maintain equipment and machines

ASTC206 – Clean and maintain external surfaces and areas

ASTC218 – Perform Street cleansing manually

Are these imported NOS still relevant and fit for purpose? YES/~~NO~~

If you answered NO, please let us know your comments and suggest an alternative standard/s

Some repetition in PROHSS1 – not reviewed the others therefore can not comment at the moment.

Please email completed Feedback Forms to standardsreview@euskills.co.uk by the 15th October 2017

Thank you for taking the time and trouble for responding to the review. Your support and views are extremely important
